

1. I think the title of this website is not so clear, maybe can add some full name to
2. book title is very clear. The search function supports many different keywords.
3. And I can see the price is very clear.
4. I can immediately get what I need. I hope I can see the cover of the book on the homepage.
5. I want to search the cs textbooks and get all the books they have.
6. Now I will look for the cs textbook. Now I would like to tick something I like. I have picked four of them. Now I would like to compare them so I type in the module code. now I can compare them more directly. The function is very good since I can compare all the books I want.
7. I can only compare the condition and the price of the selected books. But I want to compare some other things, like the
8. the color of the website. I hope there will be more colors to make this website more attractive.
9. I am in the selling page. I can type all the information about the book.
10. Here are all the information I want. I hope there have some tips on how can I rank my condition.
11. Now I go into my home page. I can fill in my contact numbers and fill in my personal information.
12. I hope I can have fields like my faculty. Here I got the favourite tag. I can put all the interesting books inside this tag. Maybe I can buy them in the future.
13. The icons on the nav bar is somewhat confusing. This mark is for selling? I hope it can be more clear.
14. So when I click on the nav bar, I can see the additional information of the icon. And in the selling page, I can attach the books. So I think it;s a good idea. The people can see my books directly. Not only the information but also the cover.
