

1. open the page, responsive page
2. space allocation is not very good
3. user wants to sell / buy, user doesn't know what the buttons mean
4. if it is a model it may cause some risk
5. why edition is not required, user thinks edition is more important
6. condition rating guide, another pop up, has struck rule for sellers to decide the condition
7. S\$ should be in front of the number
8. different attachment for different books
9. cancel as green button, not a good idea
10. preview page
11. click go back to go back and edit
12. can reply also
13. cannot go to the last page
14. the words "best match" is confusing
15. group by author name
16. can choose price, condition...
17. filter and information session are a bit confusing
18. advance search, a lot of pop up
19. close in the user post page means close the window but not close one post, but every post will be archived after a period.
