1. Website
2. Can see the icon and find the books I bought or sold.
3. Categorized according to the author. I don't need order, module code is more important.
4. Compare condition and price amongst the results.
5. No module code section, can't categorized according to the module code.
6. Don't know how to sort the results.
7. Random result based on the date by default. (if you want to sort by module code, then search the module code)
8. It's considerate that it shows a picture of the book.
9. Don't know what's the exact meaning of the condition.
10. Might not open the condition guide.
11. If not content, can just hide them.
12. Can leave a message here.
13. Will the seller be notified if I leave a message.
14. What's the criteria of new and old (unread/archived).
15. Need a clear button to delete all the message.
16. Which part of the "I want to sell button" do I need to press.
17. The title is confusing, I don't know the button is for buying or selling.
18. Click more books when I sell a book.
19. Asterisk mark means required field.
20. I can choose condition here.
21. What if I don't want to leave my phone number here?
22. What will be shown if I key in some alphabetical letters.
23. I click the plus button to insert a picture.
24. I have to transfer the photo from my handphone to laptop and insert the textbook.
25. I can't go back, there is no back button.
26. Oh I click cancel then I go back.
27. There is a section displaying the max/min/average price of textbook?
28. Is the searching filter and/or relationship?
29. What if I want to search according to the or relation?
30. I don't know what books is in page 45. Why do I need to just to that page?
31. There is an advanced search, where is the basic search. It's confusing.
32. I can see my post, actually it's similar to my notification center.
33. I have to close manually for the textbook.
34. There will be a time limit set by the system.
35. I want to delete the post, I need to click Edit then there will be Delete button.
